Healthy play, better coping: The importance of play for ... Play is considered essential for the healthy physical, social, emotional and cognitive development of children; it starts in very early childhood (). Yet, children with a chronic or life-threatening disease often face obstacles that negatively impact (possibilities to) play and play development, thus conceivably impeding developmental milestones. Alcoholism - Wikipedia Alcoholism, also known as alcohol use disorder (AUD), is a broad term for any drinking of alcohol that results in mental or physical health problems. The disorder was previously divided into two types: alcohol abuse and alcohol dependence. In a medical context, alcoholism is said to exist when two or more of the following conditions are present: a person drinks large amounts over a long time ... The Importance of Play in Promoting Healthy Child ... Play is essential to development because it contributes to the cognitive, physical, social, and emotional well-being of children and youth. Play also offers an ideal opportunity for parents to engage fully with their children. Despite the benefits derived from play for both children and parents, time for free play has been markedly reduced for some children.
