This fifty six year old school sits on ten acres and has eight separate buildings with a freestanding media center. A new intermediate, two story classroom building was opened during the 2006-2007 school year. Coral Reef Monitoring Manual - Reef Resilience park managers who need to describe coral reefs or document changes in them over time. Although no book can substitute for a hands-on training program or on-site assistance from someone experienced in the technique you want to learn, the need for coral reef monitoring is urgent and the number of "experts" is still small.
