Automotive design engineers must optimize system efficiency, cost, and robustness in the face of changing power requirements. Traditional 12V systems are being pushed to the maximum with the electrification of previously mechanical functions -- power steering, air conditioning compressors, vacuum pumps – as well as new start-stop systems and micro hybrid vehicles. Pawling Corporation – Architectural Products Pawling Corporation currently has sales representatives in every region of the United States and Canada. Our representation also has a strong global presence in Europe, the Middle East, Asia and South America. Publications Related to EMC and ESD - EMC Society The following list of publications is given as a benefit to engineers worldwide to locate technical resources. The IEEE EMC Society provides no endorsement for any books listed below. nVent ERICO Cadweld Exothermic Connections nVent, nVent CADDY, nVent ERICO, nVent ERIFLEX, and nVent LENTON are owned by nVent or its global affiliates. All other trademarks are the property of their respective owners. nVent reserves the right to change specifications without prior notice.
